Application to Use Asphalt Roofing Shingles

I /we agree to use the Certainteed Presidential Series TL asphalt roof shingles in the following color _____ accompanied by copper flashing and copper drip edge.

As soon as the asphalt roofing shingles and the copper flashing and drip edge are delivered to the job site and no later than 48 hours before their installation, call the Sun Peak Design Committee (640-1150) and a member will inspect these materials before they are installed. This inspection is not optional; it is required.
